

Eco council news!

By Bea

Recently our school has been awarded Bronze for eco-schools.

Eco-schools is an organisation to encourage schools to become more environmentally friendly. Schools must work through the programme to achieve each award.

Mrs Saunders and the school's Eco-council - the Wisborough warriors – have been very busy to achieve this.

“It's a real pleasure to work with such an enthusiastic team of warriors who really want to make a difference to our school,” says Mrs Saunders.

Our school had to first form an eco-committee, agree on an action plan and make links with both forest school and the Wisborough Horticultural Society.

Action plan:

- Saving energy around our school
- Composting food waste
- Developing growing areas

The recently built bottle greenhouse is already in use to grow vegetables and flowers ready for planting in the up-and-coming weeks.

We have also entered a fun gardening competition; the Billingshurst and District Rotary Club Primary Schools Garden Project 2016, which this year has a theme of 'Beatrix Potter'.

If anyone has any items related to this theme that would be suitable for the competition then please bring them in to Mrs Saunders.
