
08.12.20

Dear parents, carers and students,

We are writing to ask for your views on the school/college run, if it has been affected by Covid-19, and if there are specific issues you are experiencing.

[A survey is now live for parents, carers and older students who travel independently here](#) and we would be very grateful if you could take part. It takes around 5 minutes to complete and will help us to identify local and county-wide issues on the transport network.

A wide range of views will assist us in implementing a Travel Demand Management scheme in West Sussex which, following a successful initial bid for Government funding, will seek to overcome covid-related problems and make improvements to benefit road users.

As part of this work, we are also engaging with every school to gather their views. We are already working with a number of schools regarding specific issues.

We will have the opportunity to bid for further Government funding, which can be spent on capital improvement projects. So the more views we receive the stronger our case for further funding will be.

The survey closes on Friday, 18 December and the survey can be filled in by clicking the above website link.

Thank you in advance for your support

Yours sincerely,

Bill Leath

Transport Coordination Manager
West Sussex County Council
