

PE and Sport Premium Spend

2023-2024

The PE & Sport Premium is an allocation of additional funding from the Department for Education, given to every school with primary age children to support the development of Physical Education, School Sport and Competition. This money is ring-fenced. The allocation for 2023-2024 (July – July) was **£17,770**, which was allocated in two tranches. Wisborough Green also had a carry-over of £6,992 from 2022-2023. This led to a total premium of **£24,762**.

Schools must use the PE and sports funding to make additional and sustainable improvements to the quality of their physical education (PE), physical activity and sport. It must be used to develop or add to the PE, physical activity and sport that the school provides and build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years.

During the academic year 2023-2024, £24,773 was spent.

Amount	How the money was spent in 2023-2024	Impact	Sustainability
£6,160	From September 2023 to July 2024, we hired a qualified sports coach one day per week through the 'Brighton and Hove Albion in the Community' CPD package. Coaches work alongside teachers to enhance the current provision offered to pupils. They provided an after-school football club for Year 5 and 6 one day a week. In addition, they provided a lunchtime football club in the summer term to encourage Year 6 and other children, specifically girls, to engage effectively in active play during lunchtimes.	Continued confidence and increased knowledge and skills of class teachers in the delivery and teaching of PE (see Albion teacher survey). Teachers report that they have learnt new skills from the coaches and have more confidence to teach a wider range of sports. Teachers say they feel more able to plan and deliver effective PE lessons, have a better understanding of how their pupils learn in PE and are more confident in delivering challenging PE lessons.	The CPD support package has enabled teachers, including one ECT, to deliver the teaching skills of PE and sport more effectively to all pupils, and to embed a wider range of physical activity across school, in line with our scheme of work for outdoor PE. Teachers will continue to develop their teaching skills, particularly regarding how to plan, scaffold and assess learning for the benefit of future pupils.
£14,314	From September 2023 to July 2024, we hired a sports coach from Premier Education to provide targeted lessons to boost pupils' interest and participation in competitions. In addition, they provide a lunchtime Play Leader.	Focused activities led by an adult have helped involve and encourage the least active children to be active during lunchtimes and provide a role model for older children when following rules.	Children transferring the games/skills learnt to self-directed playtime activities.

		Targeted teaching of skills and sports increase participation in competitive sport.	
£1,996	Due to our own swimming pool being decommissioned because of wear and tear, external swimming tuition was provided for all Year 4 along with children from Years 5 and 6 who had not achieved the expected standard.	Raised attainment in swimming. These lessons enabled nearly all children at the end of Key Stage Two to meet the national curriculum (NC) requirements for swimming and water safety. COVID-19 restrictions meant that most children had not engaged with swimming for up to two years, at school or at home. Specialist instructors were provided for children who were not confident in the water and needed more specific support. 90% of Year 6 children have met the expected standards for swimming this year.	Observation provided professional development and training for staff to support high quality swimming and water safety lessons for pupils in the future. This provision will continue next year, for those children in Years 5 and 6 who have not yet met the expected standard.
£194	Purchase of equipment for a range of sports including dodgeball and football and equipment for Sports Day.	More pupils are choosing to engage in regular sport or physical activities. Targeted ball games encourage active play during lunchtimes.	An improved range of resources will enable a broader range of sports to be taught in future years. More children regularly active throughout the day.
£1,004	Participation in locality tournaments through The Weald Community School, including dance, cricket, athletics and multi-skills. Cover for class teachers to accompany children to the events.	By engaging with tournaments and events provided by external providers, we have increased participation in competitive sport and accessed quality facilities. Visiting The Weald is also helpful for transition as staff, facilities and children from other local primary schools become familiar.	Continued and increased participation in local events will provide opportunities for younger children to become increasingly active and have greater exposure to competition.
£455	Annual subscription for access to a whole-school scheme of work for PE (The PE Hub).	To provide increased confidence, knowledge and skills of teachers across school, including Early Years. Teachers report increased confidence in the planning and delivery of PE due to this provision.	Covers all year groups. Subscription to be paid annually to build capacity and capability to benefit children joining in future years. One new teacher starting September 2024 will receive support.
£580	Bikeability for Year 6. 100% achieved Level 2. Bike Weeks for all classes YR to Y5.	To develop a lifelong habit of daily physical activity. To ensure all children can ride safely on public roads.	Repeated as annual events.
£70	Service of gymnastics wall equipment and markings for athletics.	To enable continued use of equipment for sports and physical activities.	Quality resources maintained.
	Daily Active Mile for all classes.	To develop a lifelong habit of daily physical activity.	Encourages children to be active every day without instruction.

	<p>School worked with internal and external providers to provide a broader variety of extra-curricular activities in the 3-6pm window. School withheld rental to encourage take up. Some clubs were provided free of charge by teachers. Clubs included:</p> <ul style="list-style-type: none"> • Dance • Basketball • Football • Netball • Multisport • Gymnastics • Tag Rugby • Athletics • Cricket • Maypole Dancing 	<p>Attendance of school sport clubs and activities was broadened. More pupils were regularly engaging in sport and physical activities. Each of these clubs had a high/full uptake. All children in receipt of FSM were offered a place in at least one club.</p>	<p>Children develop a wider range of skills and engage in a variety of new sports. Clubs will continue in 2024/25.</p>
