Have your say on the new SEND Outcomes Framework

West Sussex County Council would like you to help them to develop their new SEND Outcomes Framework.

This SEND Outcomes framework should outline the best possible outcomes for our children and young people, and so we want you to join the groups and make sure what you think is important for your child or young person is included!

There are 6 suggested outcome titles which are;
I Thrive, I am Ambitious, I am Safe, I belong, I am Independent, I am Healthy.

But now you are invited to WSCC what these statements mean to you and your child / young person's future, e.g.

I belong - Do you wish that your child could join the scouts or another community club, and make friends within this?

I am ambitious - Do you want your young person to have the life they want? And importantly, what does that look like?

I am independent - Do you want your child / young person to be able to travel independently or learn how to cook?

Showing West Sussex County Council what these statements mean to us and our children and young people will shape the framework and inform the goals and measures that need to be put in place.

West Sussex County Council are really keen to hear your ideas to help to build this framework together, so please come to one of the sessions and have your say.

This framework will also be used to underpin the soon to be updated WSCC SEND and Inclusion Strategy, so lets define it by ensuring what **our** children need is at the centre of it!

All four of these Workshops are the same, therefore you are only required to attend one session, WSCC have organised a variety of times and locations to help ensure your attendance.

One of our Coproduction Team will also be attending each focus group to support you, so you can get the outcomes that are important to you and your children included.

**The details you give on this booking form come directly to us here at the West Sussex Parent Carer Forum, any information shared with WSCC will be anonymous. e.g how many parent carers of primary school children attended.*
