WISBOROUGH GREEN PRIMARY SCHOOL

ONLINE SAFETY POLICY

Approved: November 2025

Next review due by: November 2026

This Online Safety Policy outlines the commitment of Wisborough Green Primary School safeguard members of our school community online in accordance with statutory guidance and best practice.

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Wisborough Green School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Schedule for development, monitoring and review

This Online Safety Policy was approved by the Headteacher on:	February 2025
The implementation of this Online Safety Policy will be monitored by:	Miss Arwenna Greenway. Designated Safeguarding Lead.
Monitoring will take place at regular intervals:	Once a year
The governing body will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	Once a year
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	February 2026
Should serious online safety incidents take place, the following external persons/agencies should be informed:	The police, Local Authority Designated Officer, and other authorities as appropriate.

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals[1] and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety is held by the Designated Safeguarding Lead, as defined in Keeping Children Safe in Education.

- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff.
- The headteacher/senior leaders are responsible for ensuring that the Designated Safeguarding Lead / Online Safety Lead, IT provider/technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Designated Safeguarding Lead / Online Safety Lead.
- The headteacher/senior leaders will work with governor Mr Simon Butcher Collier, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.

Governors

The DfE guidance "Keeping Children Safe in Education" states:

> "Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children's welfare, this includes online safety"

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy.

This review will be carried out by the Safeguarding Governor, who will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Designated Safeguarding Lead
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually
- reporting to relevant governors group/meeting
- Receiving (at least) basic cyber-security training to enable the governors to check that the school meets the DfE Cyber-Security Standards
- The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safety Lead (DSL)

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role.

- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team
- be responsible for receiving reports of online safety incidents and handling them, and deciding whether to make a referral by liaising with relevant agencies, ensuring that all incidents are recorded.
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)

Curriculum Leads

Curriculum Leads will work with the DSL to develop a planned and coordinated online safety education programme

This will be provided through:

- Project EVOLVE
- PHSE and SRE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they follow all relevant guidance and legislation including, for example, Keeping Children Safe in Education and UK GDPR regulations
- all digital communications with learners, parents and carers and others should be on a professional level and only carried out using official school systems and devices
- they immediately report any suspected misuse or problem to the DSL and Headteacher for investigation/action, in line with the school safeguarding procedures
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices

- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies
- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.
- they adhere to the school's technical security policy, with regard to the use of devices, systems and passwords and have an understanding of basic cybersecurity
- they have a general understanding of how the learners in their care use digital technologies out of school, in order to be aware of online safety issues that may develop from the use of those technologies
- they are aware of the benefits and risks of the use of Artificial Intelligence (AI) services in school, being transparent in how they use these services, prioritising human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans, fact-checked and critically evaluated.

IT Provider

The DfE Filtering and Monitoring Standards says:

> "Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL should work closely together with IT service providers to meet the needs of your setting. You may need to ask filtering or monitoring providers for system specific training and support."
>
> "The IT service provider should have technical responsibility for:
>
> - maintaining filtering and monitoring systems
> - providing filtering and monitoring reports
> - completing actions following concerns or checks to systems"

The school has a technology service that is provided by an outside contractor (JSPC), and therefore it is the responsibility of the school to ensure that the provider carries out all the online safety measures that the school's obligations and responsibilities require. It is also important that the provider follows and implements school Online Safety Policy and procedures.

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack

- the school meets the required online safety technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from local authority / MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to (insert relevant person) for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person
- monitoring systems are implemented and regularly updated as agreed in school policies

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology.
- should avoid plagiarism and uphold copyright regulations, taking care when using Artificial Intelligence (AI) services to protect the intellectual property of themselves and others and checking the accuracy of content accessed through AI services.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services etc.
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school.
- the safe and responsible use of their children's personal devices in the school (where this is allowed)

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

Professional Standards

There is an expectation that professional standards will be applied to online safety as in other aspects of school life i.e.

- there is a consistent emphasis on the central importance of literacy, numeracy, digital competence and digital resilience. Learners will be supported in gaining skills across all areas of the curriculum and every opportunity will be taken to extend learners' skills and competence
- there is a willingness to develop and apply new techniques to suit the purposes of intended learning in a structured and considered approach and to learn from the experience, while taking care to avoid risks that may be attached to the adoption of developing technologies e.g. Artificial Intelligence (AI) tools.
- Staff are able to reflect on their practice, individually and collectively, against agreed standards of effective practice and affirm and celebrate their successes
- policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.
- Where Generative AI is used to monitor staff communications, it will be balanced with respect for privacy and transparency about what is being monitored and why.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	**Any illegal activity for example:** • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering N.B. Schools should refer to guidance about dealing with self-generated images/sexting – UKSIC Responding to and managing sexting incidents and UKCIS – Sexting in schools and colleges					**X**
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	• Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission)					**X**
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)				X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	Using systems, applications, websites or other mechanisms that bypass the filtering/monitoring or other safeguards employed by the school				X	
	Infringing copyright and intellectual property (including through the use of AI services)				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Consideration should be given for the following activities when undertaken for non-educational purposes: Schools may wish to add further activities to this list.	Staff and other adults				Learners			
	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awareness
Online gaming			X					X
Online shopping/commerce			X		X			
File sharing			X					X
Social media			X		X			
Messaging/chat			X		X			
Entertainment streaming e.g. Netflix, Disney+			X					X
Use of video broadcasting, e.g. YouTube, Twitch, TikTok			X		X			
Mobile phones may be brought to school			X					X
Use of mobile phones for learning at school			X		X			
Use of mobile phones in social time at school			X		X			
Taking photos on mobile phones/cameras	X				X			
Use of other personal devices, e.g. tablets, gaming devices			X		X			

Use of personal e-mail in school, or on school network/wi-fi			x		x			
Use of school e-mail for personal e-mails			x		x			
Use of AI services that have not been approved by the school	x				x			

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content. Personal e-mail addresses, text messaging or social media must not be used for these communications.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

Reporting and responding

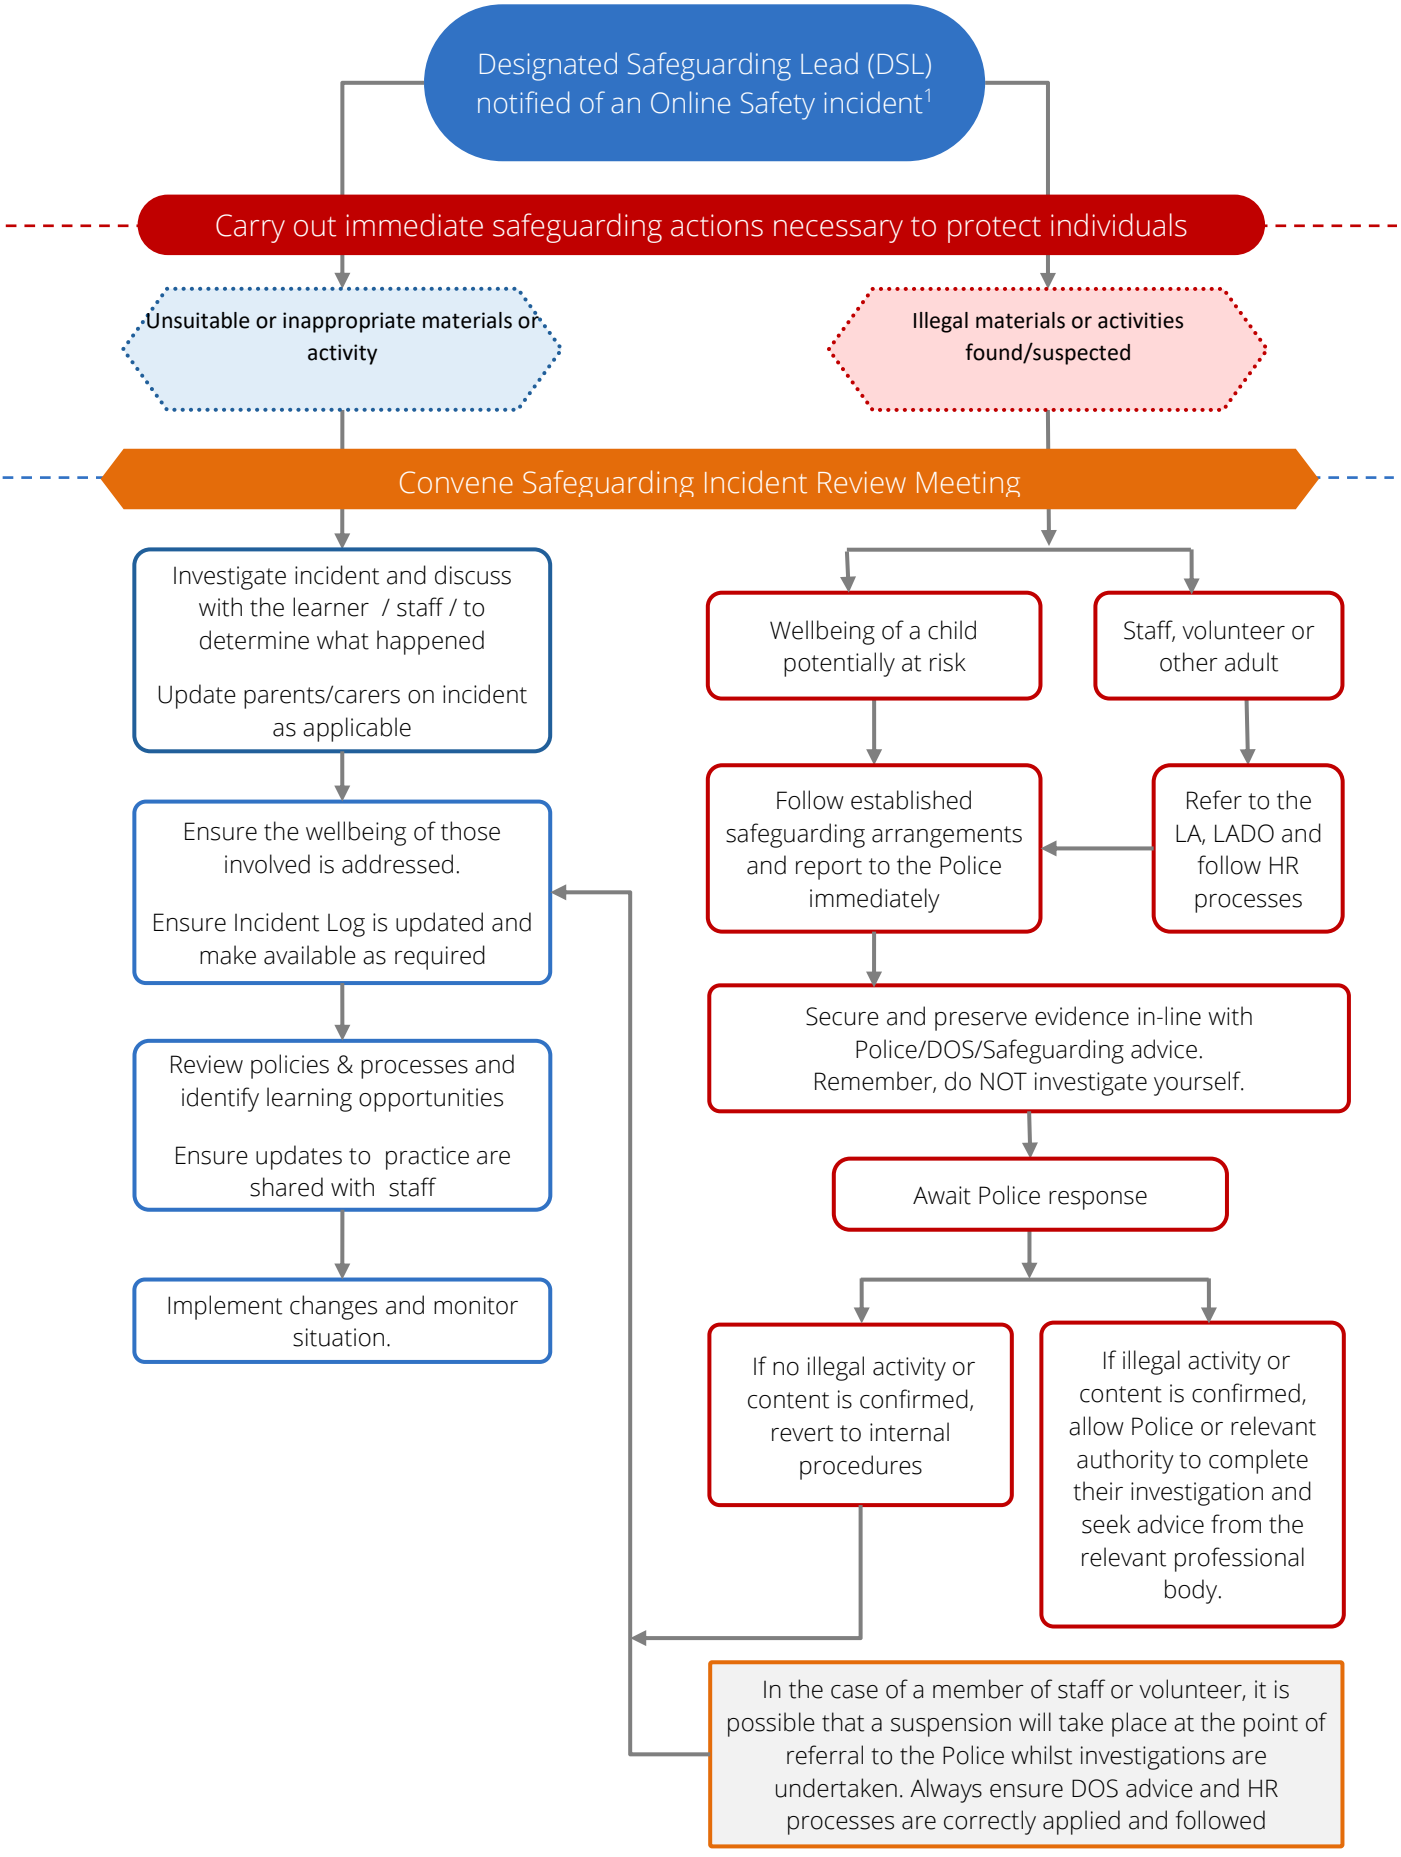
The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm (see flowchart and user actions chart in the appendix), the incident must be escalated through the agreed school safeguarding procedures, this may include:
    - Non-consensual images
    - Self-generated images
    - Terrorism/extremism
    - Hate crime/ Abuse
    - Fraud and extortion
    - Harassment/stalking

    - Child Sexual Abuse Material (CSAM)
    - Child Sexual Exploitation Grooming
    - Extreme Pornography
    - Sale of illegal materials/substances
    - Cyber or hacking offences under the Computer Misuse Act
    - Copyright theft or piracy
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority
- where AI is used to support monitoring and incident reporting, human oversight is maintained to interpret nuances and context that AI might miss
- where there is no suspected illegal activity, devices may be checked using the following procedures:
    - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
    - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
    - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
    - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
    - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
        - internal response or discipline procedures
        - involvement by local authority
        - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged in the template in these appendices.
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; Professionals Online Safety Helpline; Reporting Harmful Content; CEOP.
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions (as relevant)
- learning from the incident (or pattern of incidents) will be provided (as relevant and anonymously) to:
    - the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with
    - staff, through regular briefings
    - learners, through assemblies/lessons

- parents/carers, through newsletters, school social media, website
- governors, through regular safeguarding updates
- local authority/external agencies, as relevant

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.



Designated Safeguarding Lead (DSL) notified of an Online Safety incident[1]
Carry out immediate safeguarding actions necessary to protect individuals
Unsuitable or inappropriate materials or activity
Illegal materials or activities found/suspected
Convene Safeguarding Incident Review Meeting
Investigate incident and discuss with the learner / staff / to determine what happened
Update parents/carers on incident as applicable
Ensure the wellbeing of those involved is addressed.
Ensure Incident Log is updated and make available as required
Review policies & processes and identify learning opportunities
Ensure updates to practice are shared with staff
Implement changes and monitor situation.
Wellbeing of a child potentially at risk
Staff, volunteer or other adult
Follow established safeguarding arrangements and report to the Police immediately
Refer to the LA, LADO and follow HR processes
Secure and preserve evidence in-line with Police/DOS/Safeguarding advice. Remember, do NOT investigate yourself.
Await Police response
If no illegal activity or content is confirmed, revert to internal procedures
If illegal activity or content is confirmed, allow Police or relevant authority to complete their investigation and seek advice from the relevant professional body.
In the case of a member of staff or volunteer, it is possible that a suspension will take place at the point of referral to the Police whilst investigations are undertaken. Always ensure DOS advice and HR processes are correctly applied and followed

School actions

It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/ network/internet access rights	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).	x	X	X	X	X	X	x		x
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords	x	X	x	X	X	X			xx
Corrupting or destroying the data of other users.	x	X	x			X			x
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	x	X	x			X		x	x
Unauthorised downloading or uploading of files or use of file sharing.	x	X	x		X	X	xx		x
Using proxy sites or other means to subvert the school's filtering system.	x	X	x	X	X	X	X	x	x
Accidentally accessing offensive or pornographic material and failing to report the incident.	x	X	x			X		x	
Deliberately accessing or trying to access offensive or pornographic material.	x	X	x	X	X	X	x	x	X

Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.	x	X	x	x	X	X	x	x	x
Unauthorised use of digital devices (including taking images)	x	X	x			x			X
Unauthorised use of online services	x	X	x			X			X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	x	X	x			X		x	X
Continued infringements of the above, following previous warnings or sanctions.	x	X	x	x	x	X	x	x	X

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher/	Refer to local authority/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)	x	x	x	x	x		x	x
Actions which breach data protection or network / cyber-security rules.	x	x	x		x			x
Deliberately accessing or trying to access offensive or pornographic material	x	x	x	x	x	x	x	x
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	x	x	x	x	x	x	x	x
Using proxy sites or other means to subvert the school's filtering system.	x	x	x		x	x		x
Unauthorised downloading or uploading of files or file sharing	x	x	x		x	x		
Breaching copyright/ intellectual property or licensing regulations (including through the use of AI systems)	x	x	x	x	x	x		x
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.	X	x	X			X		x
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	x	x	x	x	x	x	x	x
Using personal e-mail/social networking/messaging to carry out digital	x	x	x	x	x	x	x	x

communications with learners and parents/carers								
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail	x	x	x			x		
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner	x	x	x			x		
Actions which could compromise the staff member's professional standing	x	x	x	x		x		
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	x	x	x	x		x		x
Failing to report incidents whether caused by deliberate or accidental actions	x	x	x			x		
Continued infringements of the above, following previous warnings or sanctions.	x	x	x	x			x	x

The use of Artificial Intelligence (AI) systems in School

As Generative Artificial Intelligence (gen AI) continues to advance and influence the world we live in, its role in education is also evolving. There are currently 3 key dimensions of AI use in schools: learner support, teacher support and school operations; ensuring all use is safe, ethical and responsible is essential.

Policy Statements

The school acknowledges the potential benefits of the use of AI in an educational context - including enhancing learning and teaching, improving outcomes, improving administrative processes, reducing workload and preparing staff and learners for a future in which AI technology will be an integral part. Staff are encouraged to use AI based tools to support their work where appropriate, within the frameworks provided below and are required to be professionally responsible and accountable for this area of their work.

- We will comply with all relevant legislation and guidance, with reference to guidance contained in Keeping Children Safe in Education and UK GDPR
- We will provide relevant training for staff and governors in the advantages, use of and potential risks of AI. We will support staff in identifying training and development needs to enable relevant opportunities.
- We will seek to embed learning about AI as appropriate in our curriculum offer, including supporting learners to understand how gen AI works, its potential benefits, risks, and ethical and social impacts. The school recognises the importance of equipping learners with the knowledge, skills and strategies to engage responsibly with AI tools.

- As set out in the staff acceptable use agreement, staff will be supported to use AI tools responsibly, ensuring the protection of both personal and sensitive data. Staff should only input anonymised data to avoid the exposure of personally identifiable or sensitive information.
- Staff will always ensure AI tools used comply with UK GDPR and other data protection regulations. They must verify that tools meet data security standards before using them for work related to the school.
- Only those AI technologies approved by the school may be used. Staff should always use school-provided AI accounts for work purposes. These accounts are configured to comply with organisational security and oversight requirements, reducing the risk of data breaches.
- We will protect sensitive information. Staff must not input sensitive information, such as internal documents or strategic plans, into third-party AI tools unless explicitly vetted for that purpose. They must always recognise and safeguard sensitive data.
- The school will ensure that when AI is used, it will not infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
- AI incidents must be reported promptly. Staff must report any incidents involving AI misuse, data breaches, or inappropriate outputs immediately to the relevant internal teams. Quick reporting helps mitigate risks and facilitates a prompt response.
- The school will audit all AI systems in use and assess their potential impact on staff, learners and the school's systems and procedures, creating an AI inventory listing all tools in use, their purpose and potential risks.
- We are aware of the potential risk for discrimination and bias in the outputs from AI tools and have in place interventions and protocols to deal with any issues that may arise. When procuring and implementing AI systems, we will follow due care and diligence to prioritise fairness and safety.
- The school will support parents and carers in their understanding of the use of AI in the school
- AI tools may be used to assist teachers in the assessment of learners' work, identification of areas for improvement and the provision of feedback. Teachers may also support learners to gain feedback on their own work using AI
- Maintain Transparency in AI-Generated Content. Staff should ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance. Clearly marking AI-generated content helps build trust and ensures that others are informed when AI has been used in communications or documents.
- We will prioritise human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans and critically evaluate AI-generated outputs. They must ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing. This is especially important for external communication to avoid spreading misinformation.
- Recourse for improper use and disciplinary procedures. Improper use of AI tools, including breaches of data protection standards, misuse of sensitive information, or failure to adhere to this agreement, will be subject to disciplinary action as defined in Staff Disciplinary Policy.

Online Safety Curriculum

The online safety curriculum is broad, relevant and provides progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum for all year groups matched against a nationally agreed framework and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE
- it incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- learners should be taught in all lessons to be critically aware of the materials/content they access online and be guided to validate the accuracy of information (including where the information is gained from Artificial Intelligence services)
- learners should be taught to acknowledge the source of information used and to respect copyright / intellectual property when using material accessed on the internet and particularly through the use of Artificial Intelligence services
- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the CyberChoices site.
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites / tools (including AI systems) the learners visit
- it is accepted that from time to time, for good educational reasons, learners may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion.
- appointment of digital leaders

Staff/volunteers

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows

- a planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding, data protection and cyber-security training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- the Designated Safeguarding Lead will receive regular updates through attendance at external training events,) and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Designated Safeguarding Lead will provide advice/guidance/training to individuals as required.

Governors

Governors should take part in online safety training/awareness sessions. This may be offered in several ways such as:

- attendance at training provided by the local authority
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Online Safety Governor. This will include:

- Cyber-security training (at least at a basic level)
- Training to allow the governor to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and reviews.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc

- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platforms,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications,
- Sharing good practice with other schools

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering & Monitoring

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

The filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

Checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice.

Filtering

A member of the SLT and a governor, are responsible for ensuring these standards are met. Roles and responsibilities of staff and third parties, for example, in-house or third-party IT support are clearly defined.

- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the DfE Filtering standards for schools and colleges and the guidance provided in the UK Safer Internet Centre Appropriate filtering.
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated

- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective. These are acted upon in a timely manner, within clearly established procedures
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- There are regular checks of the effectiveness of the filtering systems . Checks are undertaken across a range of devices at least termly and the results recorded and analysed to inform and improve provision. The DSL and Governor are involved in the process and aware of the findings. (Schools may wish to use e.g. using SWGfL Testfiltering.com to carry out these checks)
- Devices that are provided by the school have school-based filtering applied irrespective of their location.
- the school has provided enhanced/differentiated user-level filtering (allowing different filtering levels for different abilities/ages/stages and different groups of users: staff/learners, etc.)
- younger learners will use child friendly/age-appropriate search engines
- the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice

Monitoring

The school has monitoring systems in place, agreed by senior leaders and technical staff, to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that monitoring is in place.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.
- The monitoring provision is reviewed at least once every academic year and updated in response to changes in technology and patterns of online safety incidents and behaviours. The review should be conducted by members of the senior leadership team, the designated safeguarding lead, and technical staff. It will also involve the responsible governor. The results of the review will be recorded and reported as relevant.
- Devices that are provided by the school have school-based monitoring applied irrespective of their location.
- monitoring enables alerts to be matched to users and devices.
- where AI –supported monitoring is used, the purpose and scope of this is clearly communicated

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended standards in the DfE Technical Standards for Schools and Colleges:

- responsibility for technical security resides with SLT who may delegate activities to identified roles.
- A documented access control model is in place, clearly defining access rights to school systems and devices. This is reviewed annually. All users (staff and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details. Users must immediately report any suspicion or evidence that there has been a breach of security
- password policy and procedures are implemented and are consistent with guidance from the National Cyber Security Centre
- all school networks, devices and system will be protected by secure passwords.
- the administrator passwords for school systems are kept in a secure place, e.g. school safe.
- there is a risk-based approach to the allocation of learner usernames and passwords.
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place (schools may wish to provide more detail which may need to be provided by the service provider) to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- The headteacher is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- systems are in place that prevent the unauthorised sharing of personal / sensitive data unless safely encrypted or otherwise secured.

- Care will be taken when using Artificial Intelligence services to avoid the input of sensitive information, such as personal data, internal documents or strategic plans, into third-party AI systems unless explicitly vetted for that purpose. Staff must always recognise and safeguard sensitive data.
- dual-factor authentication is used for sensitive data or access outside of a trusted network
- where AI services are used for technical security, their effectiveness is regularly reviewed, updated and monitored for vulnerabilities.
- Where AI services are used, the school will work with suppliers to understand how these services are trained and will regularly review flagged incidents to ensure equality for all users e.g. avoiding bias

Mobile technologies

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			**Personal devices**		
	School owned for individual use	School owned for multiple users	Authorised device[2]	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	Yes	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No
Internet only	Yes	Yes	Yes	No	Yes	Yes
No network access	Yes	Yes	Yes	No	Yes	No

School owned/provided devices:

- all school devices are managed though the use of Mobile Device Management software
- there is an asset log that clearly states whom a device has been allocated to. There is clear guidance on where, when and how use is allowed
- mobile-free zones in children facing areas
- personal use (e.g. online banking, shopping, images etc.) is clearly defined and expectations are well-communicated.
- the use of devices on trips/events away from school is clearly defined and expectation are well-communicated.

- liability for damage aligns with current school policy for the replacement of equipment.
- education is in place to support responsible use.
-

Personal devices:

- there is a clear policy covering the use of personal mobile devices on school premises for all users
- where devices are used to support learning, staff have been trained in their planning, use and implementation, ensuring that all learners can access a required resource.
- where personal devices are brought to school, but their use is not permitted, appropriate, safe and secure storge should be made available. (this needs to be shaped according to current mobile phone school policy)
- use of personal devices for school business is defined in the acceptable use policy and staff handbook. Personal devices commissioned onto the school network are segregated effectively from school-owned systems
- the expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.
- liability for loss/damage or malfunction of personal devices is clearly defined
- there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements
- education about the safe and responsible use of mobile devices is included in the school online safety education programmes

Social media

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published.
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues.
- clear reporting guidance, including responsibilities, procedures, and sanctions.
- risk assessment, including legal risk.
- guidance for learners, parents/carers

School staff should ensure that:

- No reference should be made in social media to learners, parents/carers or school staff.
- they do not engage in online discussion on personal matters relating to members of the school community.
- personal opinions should not be attributed to the school.
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff

- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- the school permits reasonable and appropriate access to personal social media sites during school hours during non contact time with children

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school.
- the school should effectively respond to social media comments made by others according to a defined policy or process.
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images

- staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images
- care should be taken when sharing digital/video images that learners are appropriately dressed
- learners must not take, use, share, publish or distribute images of others without their permission
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy
- learners' work can only be published with the permission of the learner and parents/carers.

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through

- Public-facing website
- Social media
- Online newsletters

The school website is managed/hosted by E4Education. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

Data Protection

Personal data will be recorded, processed, transferred, and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)

- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest. The school may also wish to appoint a Data Manager and Systems Controllers to support the DPO
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule" supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice (see Privacy Notice section in the appendix)
- has procedures in place to deal with the individual rights of the data subject
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff
- ensures that where AI services are used, data privacy is prioritised

When personal data is stored on any mobile device or removable media the:

- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Cyber Security

<u>The DfE Cyber security standards for schools and colleges explains:</u>

"Cyber incidents and attacks have significant operational and financial impacts on schools and colleges. These incidents or attacks will often be an intentional and unauthorised attempt to access, change or damage data and digital technology. They could be made by a person, group, or organisation outside or inside the school or college and can lead to:

- safeguarding issues due to sensitive personal data being compromised
- impact on student outcomes
- a significant data breach
- significant and lasting disruption, including the risk of repeated future cyber incidents and attacks, including school or college closure
- financial loss
- reputational damage"

- the school has reviewed the DfE Cyber security standards for schools and colleges and is working toward meeting these standards
- the school will conduct a cyber risk assessment annually and review each term
- the school, (in partnership with their technology support partner), has identified the most critical parts of the school's digital and technology services and sought assurance about their cyber security
- the school has an effective backup and restoration plan in place in the event of cyber attacks

- the school's governance and IT policies reflect the importance of good cyber security
- staff and Governors receive training on the common cyber security threats and incidents that schools experience
- the school's education programmes include cyber awareness for learners
- the school has a business continuity and incident management plan in place
- there are processes in place for the reporting of cyber incidents. All students and staff have a responsibility to report cyber risk or a potential incident or attack, understand how to do this feel safe and comfortable to do so.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate

Appendices

. The appendices are as follows:

Learner Acceptable Use Agreement Template – KS2
Learner Acceptable Use Agreement Template – for younger learners (Foundation/KS1)
Parent/Carer Acceptable Use Agreement
Staff (and Volunteer) Acceptable Use Policy Agreement
Community Users Acceptable Use Agreement Template
Harmful Sexual Behaviour Policy
Computer Misuse and Cyber Choices Policy Template
Responding to incidents of misuse – flow chart
Record of reviewing devices/internet sites (responding to incidents of misuse)
Reporting Log
Technical Security Policy
Personal Data Advice and Guidance
Electronic Devices - Searching Screening and Confiscation
Mobile Technologies Policy
Social Media Policy
The use of Artificial Intelligence (AI) in Schools Policy

Learner Acceptable Use Agreement Template – for KS2

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

I agree to use the school's digital systems safely and responsibly to protect me, other learners and the school.

Keeping Safe Online

- The school will check how I use devices and the internet to keep everyone safe.
- I will keep my usernames and passwords private and tell a trusted adult if someone else knows them.
- I will be careful when talking to people online and will only talk to people I know and trust.
- I will not share personal information like my name, address, or photos without asking a trusted adult.
- I will only take or share images of myself, or others, when fully dressed.
- If I see or hear something online that worries or upsets me, I will tell a trusted adult straight away.
- I will only meet people I have spoken to online if a trusted adult is with me.

Using Computers and the Internet Sensibly

- I will only use devices, apps and sites that I am allowed to, and will check if I am unsure.
- I will always ask permission and check with a trusted adult before using someone else's work or pictures.
- I will make sure the information I find online is true by checking carefully.
- I will only use apps or tools, like AI, that my teacher has said are OK, and I will ask for help if I'm unsure.
- I will not copy or use music, videos, or games unless I have permission.
- I will tell a trusted adult about any damage to devices or if anything else goes wrong.
- I will check with trusted adults before clicking on any unexpected messages or links (even if these look as though they are from people that I already know).

Being Respectful and Responsible

- I will treat others kindly online, just as I do in real life.

- I will make good choices about what I share online to protect myself and others.
- I will spend a healthy amount of time using devices and make time for other activities too.
- I will always think about how my behaviour online could affect me, my friends, and my school.

What Happens If I Break These Rules

- If I don't follow these rules, my teacher may stop me from using computers or devices, speak to my parents, or take other actions to help me make better choices in the future.

By following these rules, I can enjoy using technology safely and responsibly.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Learner Acceptable Use Agreement for younger learners (Early Years/KS1)

Our Technology Rules

I will follow these rules to use computers, tablets and the internet safely at school.

Staying Safe

- My teacher will watch what I do on computers, tablets and the internet to keep me safe.
- I will keep my passwords secret and tell my teacher if I need help.
- I understand that people online are not always who they say they are. I will only talk to people online if my teacher or a trusted adult says it's OK.
- I will not share my name, address, or pictures without asking my teacher or a trusted adult first.

- If I see something that makes me feel worried or upset, I will tell my teacher or a trusted adult straight away.
- I will only use apps, games or websites my teacher says are safe.

Using Technology Kindly

- I will be kind when using technology, just like I am in real life.
- I will take care of the computers and tablets I use.
- I will only look at things my teacher says are OK.

Making Good Choices

- I will ask my teacher before I use someone else's pictures or work.
- I will take breaks from screens and do other fun things too.
- I know that I can say no / please stop to anyone online who makes me feel sad, uncomfortable, embarrassed or upset.
- I will ask for help from a trusted adult if I am not sure what to do or if I think I may have done something wrong.

What Happens If I Forget the Rules

- If I forget the rules, my teacher will help me learn to make better choices next time.

These rules help us all stay safe and have fun using computers and tablets at school!

Parent/Carer Acceptable Use Agreement

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open new opportunities for everyone. They can stimulate discussion, promote creativity, and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

What am I agreeing to?

1. I understand that Wisborough Green Primary School uses technology as part of the daily life of the school when it is appropriate to support teaching & learning and the smooth running of the school, and to help prepare the children and young people in our care for their future lives.

2. I understand that the school takes every reasonable precaution to keep pupils safe and to prevent pupils from accessing inappropriate materials, including behaviour policies and agreements, physical and technical monitoring, education and support and web filtering. However, the school cannot be held responsible for the nature and content of materials accessed through the internet and mobile technologies, which can sometimes be upsetting.

3. I understand that internet and device use in school, and use of school-owned devices, networks and cloud platforms out of school may be subject to filtering and monitoring. These should be used in the same manner as when in school.

4. I will promote positive online safety and model safe, responsible and positive behaviours in my own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers.

5. The impact of social media use is often felt strongly in schools, which is why we expect certain behaviours from pupils when using social media. I will support the school's social media policy and not encourage my child to join any platform where they are below the minimum age.

6. I will follow the school's e-Safety Policy, which outlines when I can capture and/or share images/videos. I will not share images of other people's children on social media and understand that there may be cultural or legal reasons why this would be inappropriate or even dangerous. The school sometimes uses images/video of my child for internal purposes such as recording attainment, but it will only do so publicly if I have given my consent when my child joined the school.

7. I understand that for my child to grow up safe online, s/he will need positive input from school and home, so I will talk to my child about online safety (NB: the recent LGfL DigiSafe survey of 40,000 primary and secondary pupils found that 73% of pupils trust their parents on online safety, but only half talk about it with them more than once a year). Understanding human behaviour is more helpful than knowing how a particular app, site or game works.

8. I understand that whilst home networks are much less secure than school ones, I can apply child safety settings to my home internet. Internet Matters provides guides to help parents do this easily for all the main internet service providers in the UK.

9. I understand and support the commitments made by my child in the Acceptable Use Policy (AUP) and I understand that s/he will be subject to sanctions if s/he does not follow these rules.

Staff (and Volunteer) Acceptable Use Agreement Template

School Policy

Digital technologies have become integral to the lives of everyone, including children and young people , both within schools and in their lives outside school. The internet and digital technologies are powerful tools, which can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. The school has the right to protect itself and its systems and all users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while online and using digital technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to minimise the risk to the safety, privacy or security of the school community and its systems. I acknowledge the potential of digital technologies for enhancing learning and will endeavour to integrate them in a way that aligns with the school's policy, ethos and values.

For my professional and personal safety:

- I understand that the school will monitor my use of school devices and digital technology systems
- I understand that the rules set out in this agreement also apply to use of these devices and technologies out of school, and to the transfer of personal / sensitive data (digital or paper based) out of the school
- I understand that the school devices and digital technology systems are primarily intended for educational use and that I will only use them for personal or recreational use within relevant school policies. .
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
- I will store my passwords securely and in line with the school's relevant security policy.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using digital technologies and systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner. I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images, and taking account of parental permissions. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in the school in accordance with school policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any online activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- I will abide by all relevant guidance and legislation (e.g., Keeping Children Safe in Education / UK GDPR)
- I will ensure that I am aware of cyber-security risks and that I will not respond to any communications that might put my / school data or systems at risk from attack
- When using AI systems in my professional role I will use these responsibly and:
  - will only use AI technologies approved by the school
  - will be aware of the risks of bias and discrimination, critically evaluating the outputs of AI systems for such risks
  - to protect personal and sensitive data, I will ensure that I have explicit authorisation when uploading sensitive school-related information into AI systems
  - will take care not to infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
  - ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance
  - critically evaluate AI-generated outputs to ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing
  - will use generative AI tools responsibly to create authentic and beneficial content, ensuring respect for individuals' identity and well-being
- When I use my personal mobile devices in school, I will follow the rules set out by the school, in the same way as if I was using school equipment. I will ensure that any such devices are protected by up-to-date anti-virus / anti-malware software and are free from viruses.
- When communicating in a professional capacity, I will only use technology and systems sanctioned by the school.
- I will not use personal accounts on school systems.
- I will exercise informed safe and secure practice when accessing links to content from outside of my organisation to reduce the risk of cyber security threats.
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not access illegal, inappropriate or harmful content on school systems.
- I will not bypass any filtering or security systems that are used to prevent access to such content.
- I will not install or attempt to install unauthorised programmes of any type on a school device , nor will I try to alter device settings, unless this is allowed in school policies
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school Data Security Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that the data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have appropriate permissions to use the original work of others in my own work and will reflect this with appropriate acknowledgements, particularly where AI has been used to generate content
- Where content is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use agreement applies to my use of digital technologies related to my professional responsibilities, within or outside of the school.
- I will ensure my use of technologies and platforms is in line with the school's agreed codes of conduct.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include (schools should amend this section to provide relevant sanctions as per their behaviour policies) a warning, a suspension, referral to Governors and/or the Local Authority / Trust in the event of illegal activities, the involvement of the Police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.

Acceptable Use Agreement for Community Users

This acceptable use agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.

- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, whatever the cause.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Harmful Sexual Behaviour policy

Statement of intent

Our school has a zero-tolerance approach to any harmful sexual behaviour involving children and acknowledge that it could be occurring at Wisborough Green Primary and in our school community. The school is proactive in its approach to assessing prevalence, responding to incidents and challenging and changing behaviour. This policy applies to all governors, staff and learners.

Schools and colleges have a statutory duty to safeguarding the children in their setting. We work together to foster an environment that creates healthy relationships for children and young people.

Our whole-school approach encourages healthy relationships and works to prevent harmful sexual behaviour. We provide high quality education within the curriculum to reduce the likelihood of the situations occurring.

We recognise that HSB is harmful to both the child/children affected by the behaviours and the child/children who displayed the behaviour and provide ongoing support for all involved.

Our approach is to treat everything as safeguarding incident in the first instance - we distinguish between behaviours that are exploratory and part of healthy age and ability appropriate development and those that may be harmful.

As a school we provide regular opportunities for school staff to understand what harmful sexual behaviours might look like and what they should do in the event of a report.

Definitions

Whilst peer on peer harassment has become a widely recognised term, this is already moving towards child on child in recognition that age and development is a factor in making decisions about behaviour. A significant age difference between the children involved in an incident may lead to a decision about the behaviour being harmful or not. For example, this could be an older child's behaviour towards a pre-pubescent child, or a younger child's behaviour towards an older child with learning difficulties. It is important that Designated Safeguarding Leads (DSL) know what is and is not HSB. DSLs should be involved in planning the curriculum for HSB, planning preventative actions and ensuring a whole-schools culture that condones HSB, alongside all other forms of abuse and harassment. This template policy provides a basis for an effective approach to managing sexual violence and harassment.

What is sexual violence?

The following are sexual offences under the Sexual Offences Act 2003:

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents. (NOTE- Schools and colleges should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent, or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault.)

Causing someone to engage in sexual activity without consent: A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (NOTE – this could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.)

What is sexual harassment?

Keeping Children Safe in Education Guidance 2022 and the Sexual Violence and sexual harassment between children in schools and colleges state:

When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline and both inside and outside of school/college. When we reference sexual harassment, we do so in the context of child-on-child sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- sexual "jokes" or taunting
- physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence – it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- Online sexual harassment may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
- consensual and non-consensual sharing of nude and semi-nude images and/or videos. Taking and sharing nude photographs of U18s is a criminal offence.
    - sharing of unwanted explicit content
    - up skirting (this is a criminal offence)

- sexualised online bullying.
- unwanted sexual comments and messages, including, on social media.
- sexual exploitation; coercion and threats.

It is important that schools and colleges consider sexual harassment in broad terms. Sexual harassment (as set out above) creates a culture that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence.

Responsibilities

Leaders and DSLs

Our leaders and DSLs have ultimate responsibility in dealing with all incidents of harmful sexual behaviour, including online. It is the expectation that all incidents of harmful sexual behaviour/sexual violence and harassment are reported in line with school safeguarding and child protection procedures.

We ensure that our designated safeguarding lead/s (DSL) and their deputies are confident in school safeguarding processes and when it is necessary to escalate. Our DSLs know what local and national specialist support is available to support all children involved in harmful sexual behaviour and are confident as to how to access this support when required.

Designated safeguarding lead/s and their deputies have an in-depth working knowledge of key documentation, particularly KCSIE 2022 and Sexual Violence and Sexual Harassment Between Children in Schools and Colleges (DfE 2021). We ensure that they receive appropriate specialist training, commensurate with their role and that ongoing training is provided for all school staff.

It is the role of school leaders and designated safeguarding leads to ensure that all staff and Governors receive training specific to harmful sexual behaviour, and that it is included as part of induction.

Staff

It is the responsibility of all staff to have read and understood this policy and associated policies. All staff must report any incidents or suspected incidents of harmful sexual behaviour to DSLs in line with school policy and ensure they are informed of the outcome. All staff will challenge any harmful sexual language or inappropriate behaviour. Staff have a duty to ensure that the school environment is one which is safe and which supports learners to understand safe and healthy relationships and appropriate behaviour through delivery of our curriculum.

Governors

We ensure that our trust board/governing body have a good understanding of what harmful sexual behaviour is, when it can pose a risk to children and how to keep children safe. Our trustees/governors receive regular training and updates, both in terms of what sexualised behaviour is, but also how to effectively support establishments and their stakeholders whilst holding provision to account.

As part of the headteacher's report, our trust board/governing body has the opportunity to monitor and evaluate the approach to harmful sexual behaviour to ensure it is adequate and effective. This includes evaluation of the curriculum, pupil voice activity and evaluation of parent/carer engagement. Trustees/Governors ensure that risks relating to these issues are identified, that a number of reporting routes are available, and that risks are effectively mitigated.

Learners

All learners have the right to learn in a safe, healthy and respectful school environment. Our learners benefit from a broad and balanced curriculum and are taught about healthy relationships and know how and when to report and that a range of different reporting routes is available to them. Our learners are encouraged to report any harmful sexual behaviour, even if they are not directly involved. All learners will be believed if they make a disclosure and will be treated sensitively - whilst we cannot guarantee confidentiality, their thoughts and wishes will be taken into account when supporting them.

Parents/carers

We work hard to engage parents and carers by:

- regular in school sessions
- sharing newsletters
- sharing information online e.g., website, social media
- providing curriculum information

Our parents and carers are made aware of how and when to report any concerns to the school, that all incidents will be handled with care and sensitivity, and that it may sometimes be necessary to involve other agencies.

Vulnerable groups

We recognise that, nationally, vulnerable learners are three times more likely to be at risk from Harmful Sexual Behaviour. These include:

- A child with additional needs and disabilities.
- A child living with domestic abuse.
- A child who is at risk of/suffering significant harm.
- A child who is at risk of/or has been exploited or at risk of exploited (CRE, CSE),
- A care experienced child.
- A child who goes missing or is missing education.
- Children who identify as, or are perceived as, LGBTQI+ and/or any of the other protected characteristics.

Children displaying HSB have often experienced their own abuse and trauma. We ensure that any vulnerable learner is offered appropriate support, both within and outside school, sometimes via specialist agencies.

Reporting

Our systems are well promoted, easily understood and easily accessible for children and young people to confidently report abuse, knowing their concerns will be treated seriously. All reports will be dealt with swiftly and sensitively and outcomes shared where appropriate. We also respond to anonymous reports, or reports made by third parties.

Responding to an incident or disclosure

In this policy we recognise the importance of distinguishing between healthy, problematic and sexually harmful behaviour (HSB)

Our response is always based on sound safeguarding principles and follows school safeguarding processes. It is calm, considered and appropriate and puts the learner at the centre of all decisions made.

The school will always adopt a multi-agency approach and seek external support and guidance, in line with school policy, if deemed necessary. This may include:

Social Services, Early Help, CAMHS, Police and other agencies as appropriate.

Risk assessment

The school may deem it necessary to complete a harmful sexual behaviour risk assessment as part of the response to any reported incidents. The purpose of the risk assessment is the protect and support **all those involved** by identifying potential risk, both in and out of school (e.g., including public transport, after school clubs etc) and by clearly describing the strategies put in place to mitigate such risk.

The risk assessment will be completed following a meeting with all professionals working with the learner, as well as parents or carers. Where appropriate, the learners involved will also be asked to contribute.

The risk assessment will be shared will all staff who work with the learner, as well as parents and carers. It will be dynamic and will respond to any changes in behaviour and will be regularly evaluated to assess impact.

Education

Our school's educational approach seeks to develop knowledge and understanding of healthy, problematic, and sexually harmful behaviours, and empowers young people to make healthy, informed decisions. Our school's approach is delivered predominantly through PSHE and RSE and additional opportunities are provided through:

- Cross curricular programmes (e.g., using the ProjectEVOLVE resources)
- Computing

Our approach is given the time it deserves and is authentic i.e., based on current issues nationally, locally and within our setting. It is shaped and evaluated by learners and other members of the school community to ensure that it is dynamic, evolving and based on need. We do this by:

- Surveys
- Focus groups
- Parental engagement
- Staff consultation
- Staff training

The following resources are used:

- ProjectEVOLVE - https://projectevolve.co.uk

Training

It is effective safeguarding practice for the designated safeguarding lead (and their deputies) to have a good understanding of HSB. This could form part of their safeguarding training. This will aid in planning preventative education, implementing preventative measures, drafting and implementing an effective child protection policy and incorporating the approach to sexual violence and sexual harassment into the whole school or college approach to safeguarding.

- Brook traffic light tool
- Whole staff training.

A clear training strategy which supports staff to respond effectively to different types of harassment and sexual misconduct incidents. This should involve an assessment of the training needs of all staff. This strategy should be reviewed and evaluated on a regular basis to ensure it is fit for purpose.

Training should be made available on an ongoing basis for all staff and students to raise awareness of harassment and sexual misconduct with the purpose of preventing incidents and encouraging reporting where they do occur.

Computer Misuse and Cyber Choices Policy

All key stakeholders, including the school IT service provider, have responsibility for the safeguarding of young people from computer misuse and are aware of the Cyber Choices programme led by the National Crime Agency (NCA) and managed locally by Regional Organised Crime Units (part of the national policing network). The risks to young people of crossing the line into committing cybercrimes is a safeguarding issue.

All staff are made aware of the safeguarding risks of computer misuse.

All staff are familiar with the NCA Hacking it Legal Leaflet*, which explains Cyber Choices and the Computer Misuse Act 1990, and lists recommended resources for teachers to use.

Staff are aware of the role of their local Regional Organised Crime Unit as their point of contact for Cyber Choices referrals.

Learners agree to the Acceptable Use Policy (AUP) which outlines acceptable online behaviours and explains that some online activity is illegal. Acceptable computer use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the NCA Cyber Choices site.

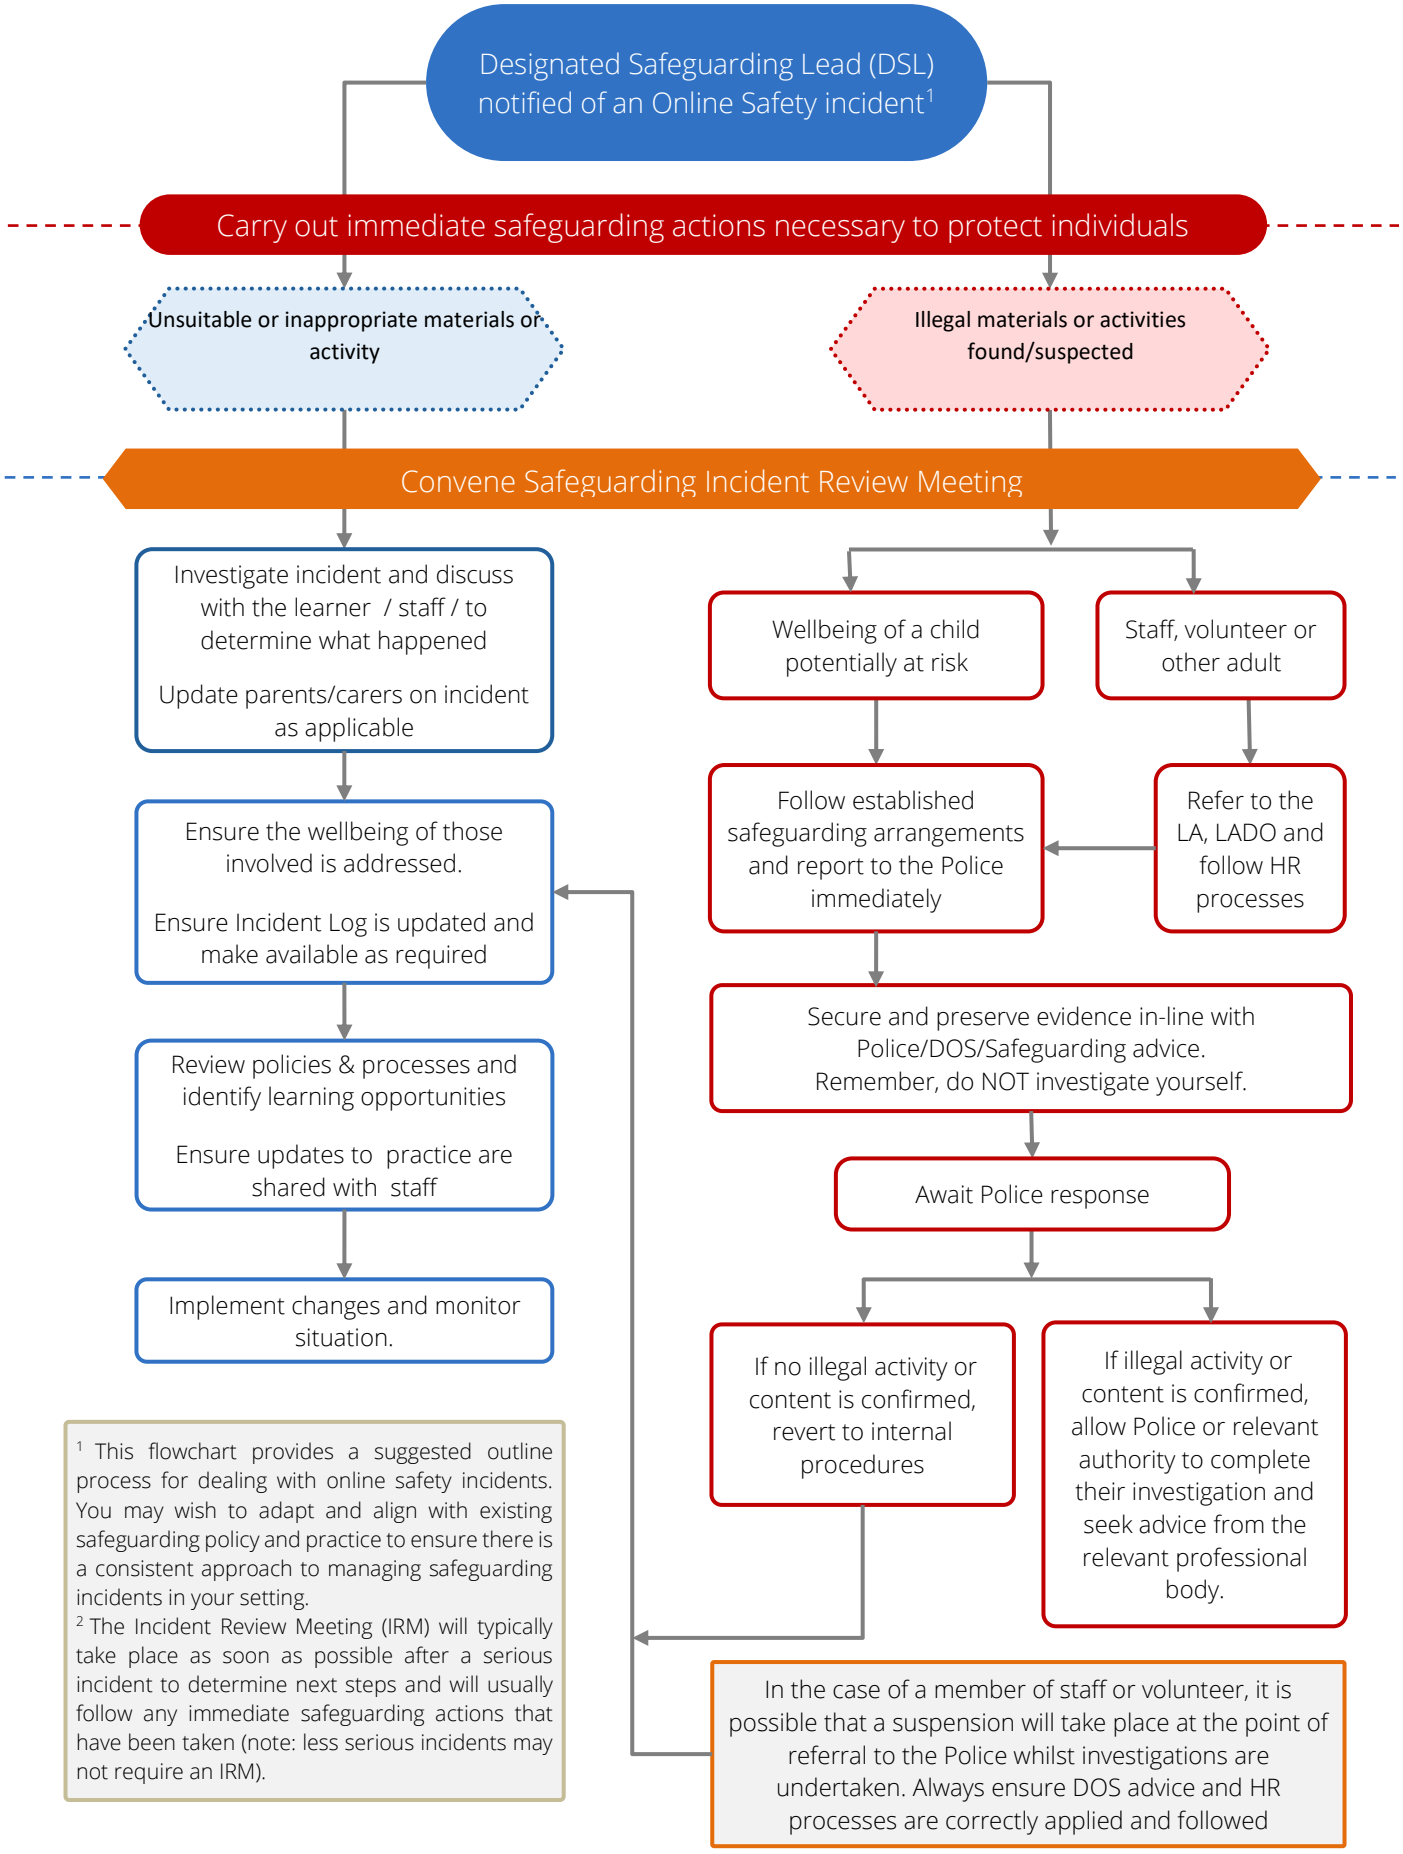
Any breach of the AUP or activity by a learner that may constitute a cybercrime, in school or at home, will be referred to the Designated Safeguarding Lead for consideration as a safeguarding risk.

Where the DSL believes that the learner may be at risk of committing cybercrimes, or to already be committing cybercrimes, a referral to the local Cyber Choices programme will be made (contact details for all Regional Organised Crime Units are available in the "what to do if you're concerned" section at the bottom of the NCA Cyber Choices page). Where the DSL is unsure if a learner meets the referral criteria, advice should be sought from the local Cyber Choices team.

Parents also have the opportunity report potential cybercrime directly to the local Cyber Choices team but are recommended to make school-based concerns through the DSL.

The IT service provider is aware of the safeguarding requirement to refer concerns about computer misuse to the Designated Safeguarding Lead and has a clear process to follow in order to do so.

Responding to incidents of misuse – flow chart



[1] This flowchart provides a suggested outline process for dealing with online safety incidents. You may wish to adapt and align with existing safeguarding policy and practice to ensure there is a consistent approach to managing safeguarding incidents in your setting.

[2] The Incident Review Meeting (IRM) will typically take place as soon as possible after a serious incident to determine next steps and will usually follow any immediate safeguarding actions that have been taken (note: less serious incidents may not require an IRM).

Technical Security Policy (including filtering, monitoring and passwords)

Introduction

Effective technical security depends not only on technical measures, but also on appropriate policies and procedures and on good user education and training. This is informed by the Department for Education (DfE) guidance, Keeping Children Safe in Education, and the Digital and Technology Standards and therefore applicable for schools and colleges in England. For schools and colleges outside England, this would be considered good practice, the school should also ensure that they remain compliant with national, local authority or MAT guidance, as relevant. The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that:

- users can only access data to which they have right of access
- access to personal data is securely controlled in line with the school's personal data policy
- system logs are maintained and reviewed to monitor user activity
- there is effective guidance and training for users
- there are regular reviews and audits of the safety and security of school computer systems, including filtering and monitoring provision

Responsibilities

Education settings are directly responsible for ensuring they have the appropriate level of security protection procedures in place in order to safeguard their systems, staff and learners and review the effectiveness of these procedures periodically to keep up with evolving cyber-crime technologies. The management of technical security is the responsibility of Governors and Senior Leaders, supported in this by the Designated Safeguarding Lead, Online Safety Lead and IT Service Provider.

Policy statements

The school is responsible for ensuring that their infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people receive guidance and training and will be effective in carrying out their responsibilities:

- school technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- cyber security is included in the school risk register.
- there will be regular reviews and audits of the safety and security of school technical systems.
- servers, wireless systems, and cabling must be securely located and physical access restricted.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- appropriate security measures (including updates) are in place to protect the servers, firewalls, switches, routers, wireless systems, workstations, mobile devices etc from

accidental or malicious attempts which might threaten the security of the school systems and data, including operating systems.

- the school's infrastructure and individual workstations are protected by up-to-date software to protect against malicious threats from viruses, worms, trojans etc.
- responsibilities for the management of technical security are clearly assigned to appropriate and well-trained staff
- all users will have clearly defined access rights to school technical systems and accounts are deleted when the user leaves. Details of the access rights available to groups of users will be recorded by the network manager/technical staff/other person and will be reviewed, at least annually, by the online safety group.
- users will be made responsible for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security
- The IT Service Provider, in partnership with Governors/SLT/DSL, regularly monitors and records the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement.
- mobile device security and management procedures are in place
- an appropriate system is in place for users to report any actual/potential technical incident to the SLT/DSL/Online Safety Lead (OSL)/ (or other relevant person, as agreed)
- Sarah Taaffe and Arwenna Greenway is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- remote (classroom/network) management tools are used by staff to control workstations and view users' activity.
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- by default, users do not have administrator access to any school-owned device.
- an agreed policy is in place regarding the extent of personal use that users (staff/learners/community users) and their family members are allowed on school devices that may be used out of school.
- an agreed policy is in place regarding the use of removable media by users on school devices
- personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Password Security

A safe and secure username/password system is essential if the above is to be established and will apply to all school technical systems, including networks, devices, email and learning platform).

Policy Statements:

- The password policy and procedures reflect NCSC and DfE advice/guidance.
- The use of passwords is reduced wherever possible, for example, using Multi-Factor Authentication (MFA) or (Single Sign On) SSO.

- Security measures are in place to reduce brute-force attacks and common passwords are blocked.
- School networks and system will be protected by secure passwords.
- Passwords are encrypted by the system to prevent theft.
- Passwords do not expire and the use of password managers is encouraged.
- Complexity requirements (e.g. capital letter, lower case, number, special character) are not used.
- Users are able to reset their password themselves.
- All passwords are at least 12 characters long and users are encouraged to use 3 random words.
- Passwords are immediately changed in the event of a suspected or confirmed compromise.
- No default passwords are in use. All passwords provided "out of the box" are changed to a unique password by the IT Service Provider.
- All accounts with access to sensitive or personal data are protected by Multi-Factor Authentication methods.
- A copy of administrator passwords is kept in a secure location.
- All users (adults and learners) have responsibility for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- Passwords must not be shared with anyone.

Learner passwords:

Policy Statements

- For younger children and those with special educational needs, learner usernames and passwords can be kept in an electronic or paper-based form, but they must be securely kept when not required by the user. Password complexity for these users could be reduced (for example 6-character maximum) and should not include special characters. Where external systems have different password requirements the use of random words or sentences should be encouraged.
- Learners are encouraged to set passwords with an increasing level of complexity. Passwords using 3 three random words and with a length of over 12 characters are considered good practice.
- Users will be required to change their password if it is compromised.
- Learners will be taught the importance of password security, this should include how passwords are compromised, and why these password rules are important.

Filtering and Monitoring

Introduction to Filtering

The filtering of internet content provides an important means of preventing users from accessing material that is illegal or is inappropriate in an educational context. The filtering system cannot, however, provide a 100% guarantee that it will do so, as online content changes dynamically and new technologies are constantly being developed. It is important, therefore, to understand that filtering is

only one element in a larger strategy for online safety and acceptable use. It is important that the school has a filtering policy to manage the associated risks and to provide preventative measures which are relevant to the situation in this school.

Your filtering system should be operational, up to date and applied to all:

- users, including guest accounts.
- school owned devices
- devices using the school broadband connection.

Your filtering system should:

- filter all internet feeds, including any backup connections.
- be age and ability appropriate for the users and be suitable for educational settings.
- handle multilingual web content, images, common misspellings and abbreviations.
- identify technologies and techniques that allow users to get around the filtering such as VPNs and proxy services and block them.
- provide alerts when any web content has been blocked.

Mobile and app content is often presented in a different way to web browser content. If your users access content in this way, you should get confirmation from your provider as to whether they can provide filtering on mobile or app technologies. A technical monitoring system should be applied to devices using mobile or app content to reduce the risk of harm.

Introduction to Monitoring

Monitoring user activity on school and college devices is an important part of providing a safe environment for children and staff. Unlike filtering, it does not stop users from accessing material through internet searches or software. Monitoring allows you to review user activity on school and college devices. For monitoring to be effective it must pick up incidents urgently, usually through alerts or observations, allowing you to take prompt action and record the outcome.

Your monitoring strategy should be informed by the filtering and monitoring review. A variety of monitoring strategies may be required to minimise safeguarding risks on internet connected devices and may include:

- physically monitoring by staff watching screens of users
- live supervision by staff on a console with device management software
- network monitoring using log files of internet traffic and web access
- individual device monitoring through software or third-party services

DfE Keeping Children Safe in Education requires schools to have "appropriate monitoring". DfE published Filtering and monitoring standards for schools and colleges in March 2023. Schools are recommended to use the UK Safer Internet Centre Definitions to help them determine if their monitoring system is appropriate

Filtering and Monitoring Responsibilities

DfE Filtering Standards require that schools and colleges identify and assign roles and responsibilities to manage your filtering and monitoring systems, and include

Role	Responsibility	Name
Responsible Governor	Strategic responsibility for filtering and monitoring and need assurance that the standards are being met.	Simon Butcher Collier
Senior Leadership	Team Member Responsible for ensuring these standards are met and: • procuring filtering and monitoring systems • documenting decisions on what is blocked or allowed and why • reviewing the effectiveness of your provision • overseeing reports Ensure that all staff: • understand their role • are appropriately trained • follow policies, processes and procedures • act on reports and concerns	Arwenna Greenway
Designated Safeguarding Lead	Lead responsibility for safeguarding and online safety, which could include overseeing and acting on: • filtering and monitoring reports • safeguarding concerns • checks to filtering and monitoring systems	Arwenna Greenway
IT Service Provider	Technical responsibility for: • maintaining filtering and monitoring systems • providing filtering and monitoring reports • completing actions following concerns or checks to systems	JSPC

All staff need to be aware of reporting mechanisms for safeguarding and technical concerns. They should report if:	• they witness or suspect unsuitable material has been accessed • they can access unsuitable material • they are teaching topics which could create unusual activity on the filtering logs • there is failure in the software or abuse of the system • there are perceived unreasonable restrictions that affect teaching and learning or administrative tasks • they notice abbreviations or misspellings that allow access to restricted material	

Policy Statements

Internet access is filtered for all users. Differentiated internet access is available for staff and customised filtering changes are managed by the school. Illegal content is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and other illegal content lists. Filter content lists are regularly updated and internet use is logged and frequently monitored. The monitoring process alerts the school to breaches of the filtering policy, which are then acted upon. There is a clear route for reporting and managing changes to the filtering system. Where personal mobile devices are allowed internet access through the school network, filtering will be applied that is consistent with school practice.

- There is a filtering and monitoring system in place that safeguards staff and learners by blocking harmful, illegal and inappropriate content.
- There is a monitoring system that enables the prompt investigation of a potential safeguarding incident and outcomes are logged.
- Roles and responsibilities for the management of filtering and monitoring systems have been defined and allocated.
- The filtering and monitoring provision is reviewed at least annually and checked regularly.
- There is a defined and agreed process for making changes to the filtering or monitoring system that involves a senior leader in the agreement of the change.
- Mobile devices that access the school's internet connection (whether school or personal devices) will be subject to the same filtering standards as other devices on the school systems.
- The school has provided enhanced/differentiated user-level filtering through the use of the EXA filtering system. (allowing different filtering levels for different ages/stages and different groups of users – staff/learners etc.)

Filtering and Monitoring Review and Checks

To understand and evaluate the changing needs and potential risks of the school, the filtering and monitoring provision will be reviewed at least annually. The review will be conducted by members of the senior leadership team, the designated safeguarding lead (DSL), and the IT service provider. Additional checks to filtering and monitoring will be informed by the review process so that governors have assurance that systems are working effectively and meeting safeguarding obligations.

Reviewing the filtering and monitoring provision

A review of filtering and monitoring will be carried out to identify the current provision, any gaps, and the specific needs of learners and staff.

The review will take account of:

- the risk profile of learners, including their age range, pupils with special educational needs and disability (SEND), pupils with English as an additional language (EAL)
- what the filtering system currently blocks or allows and why
- any outside safeguarding influences, such as county lines
- any relevant safeguarding reports
- the digital resilience of learners
- teaching requirements, for example, the RHSE and PSHE curriculum
- the specific use of chosen technologies, including Bring Your Own Device (BYOD)
- what related safeguarding or technology policies are in place
- what checks are currently taking place and how resulting actions are handled

To make the filtering and monitoring provision effective, the review will inform:

- related safeguarding or technology policies and procedures
- roles and responsibilities
- training of staff
- curriculum and learning opportunities
- procurement decisions
- how often and what is checked
- monitoring strategies

The review will be carried out as a minimum annually, or when:

- a safeguarding risk is identified
- there is a change in working practice, e.g. remote access or BYOD
- new technology is introduced

Checking the filtering and monitoring systems

Checks to filtering and monitoring systems are completed and recorded as part of the filtering and monitoring review process. How often the checks take place will be based on the context, the risks highlighted in the filtering and monitoring review, and any other risk assessments. Checks will be undertaken from both a safeguarding and IT perspective.

When filtering and monitoring systems are checked this should include further checks to verify that the system setup has not changed or been deactivated. Checks are performed on a range of:

- school owned devices and services, including those used off site
- geographical areas across the site
- user groups, for example, teachers, pupils and guests

Logs of checks are kept so they can be reviewed. These record:

- when the checks took place
- who did the check
- what was tested or checked
- resulting actions

Training/Awareness:

Governors, Senior Leaders and staff are made aware of the expectations of them:

- at induction
- at whole-staff/governor training
- through the awareness of policy requirements
- through the acceptable use agreements
- in regular updates throughout the year

Those with specific responsibilities for filtering and monitoring (Responsible Governor, DSL, OSL or other relevant persons) will receive enhanced training to help them understand filtering and monitoring systems and their implementation and review.

Learners are made aware of the expectations of them:

- in lessons (the schools should describe how this will take place)
- through the acceptable use agreements

Parents will be informed of the school's filtering policy through the acceptable use agreement and through online safety awareness sessions/newsletter etc.

Audit/Monitoring/Reporting/Review:

Governors/SLT/DSL/OSL will ensure that full records are kept of:

- Training provided
- User Ids and requests for password changes
- Annual online safety reviews including filtering and monitoring
- Changes to the filtering system
- Checks on the filtering and monitoring systems
- Security breaches or issues

Social Media Policy

Social media (e.g. Facebook, Twitter, LinkedIn) is a broad term for any kind of online platform which enables people to directly interact with each other. However, some games, for example Minecraft or World of Warcraft and video sharing platforms such as You Tube have social media elements to them.

The school recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and learners are actively encouraged to find creative ways to use social media. However, there are some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by the school, its staff, parents, carers and children.

Scope

This policy is subject to the school's codes of conduct and acceptable use agreements.

This policy:

- Applies to all staff and to all online communications which directly or indirectly, represent the school.
- Applies to such online communications posted at any time and from anywhere.
- Encourages the safe and responsible use of social media through training and education
- Defines the monitoring of public social media activity pertaining to the school

The school respects privacy and understands that staff and learners may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school, it must be made clear

that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.

Personal communications which do not refer to or impact upon the school are outside the scope of this policy.

Digital communications with learners are also considered. Staff may use social media to communicate with learners via a school social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications.

Organisational control

Roles & Responsibilities

- **SLT**
  - Facilitating training and guidance on Social Media use.
  - Developing and implementing the Social Media policy
  - Taking a lead role in investigating any reported incidents.
  - Making an initial assessment when an incident is reported and involving appropriate staff and external agencies as required.
  - Receive completed applications for Social Media accounts
  - Approve account creation
- **Administrator/Moderator**
  - Create the account following SLT approval
  - Store account details, including passwords securely
  - Be involved in monitoring and contributing to the account
  - Control the process for managing an account after the lead staff member has left the organisation (closing or transferring)
- **Staff**
  - Know the contents of and ensure that any use of social media is carried out in line with this and other relevant policies
  - Attending appropriate training
  - Regularly monitoring, updating and managing content he/she has posted via school accounts
  - Adding an appropriate disclaimer to personal accounts when naming the school

Process for creating new accounts

The school community is encouraged to consider if a social media account will help them in their work, e.g. a history department Twitter account, or a "Friends of the school" Facebook page. Anyone wishing to create such an account must present a business case to the Leadership Team which covers the following points:-

- The aim of the account
- The intended audience

- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the school has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

Monitoring

School accounts must be monitored regularly and frequently (preferably 7 days a week, including during holidays). Any comments, queries or complaints made through those accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Behaviour

- The school requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.
- Digital communications by staff must be professional and respectful at all times and in accordance with this policy. Staff will not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. School social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the school.
- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to school activity.
- If a journalist makes contact about posts made using social media staff must follow the school media policy before responding.
- Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff, and escalated where appropriate.
- The use of social media by staff while at work may be monitored, in line with school policies. The school permits reasonable and appropriate access to private social media sites. However, where excessive use is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where conduct is considered illegal, the school will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

Legal considerations

- Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.
- Users must ensure that their use of social media does not infringe upon relevant data protection laws, or breach confidentiality.

Handling abuse

- When acting on behalf of the school, respond to harmful and / or offensive comments swiftly and with sensitivity.
- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken
- If you feel that you or someone else is subject to abuse by colleagues through use of online communications, then this action must be reported using the agreed school protocols.

Tone

The tone of content published on social media should be appropriate to the audience, whilst retaining appropriate levels of professional standards. Key words to consider when composing online content are:

- Engaging
- Conversational
- Informative
- Professional

Use of images

School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- Permission to use any photos or video recordings should be sought in line with the school's digital and video images policy. If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected.
- Under no circumstances should staff share or upload learner pictures online other than via official school channels.
- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Learners should be appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.
- If a member of staff inadvertently takes a compromising picture which could be misconstrued or misused, they must delete it immediately.

Personal use

- **Staff**

- Personal communications are those made via a personal online accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy.
- Where excessive or inappropriate personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school permits reasonable and appropriate access to private social media sites.

- **Learners**
  - Staff are not permitted to follow or engage with current learners of the school on any personal social media account.
  - The school's education programme should enable the learners to be safe and responsible users of social media.
  - Learners are encouraged to comment or post appropriately about the school. Any offensive or inappropriate comments will be resolved by the use of the school's behaviour policy
- **Parents/Carers**
  - If parents/carers have access to a school learning platform where posting or commenting is enabled, parents/carers will be informed about acceptable use.
  - The school has an active parent/carer education programme which supports the safe and positive use of social media. This includes information on the website.
  - Parents/Carers are encouraged to comment or post appropriately about the school. In the event of any offensive or inappropriate comments being made, the school will ask the parent/carer to remove the post and invite them to discuss the issues in person. If necessary, refer parents to the school's complaints procedures.

Monitoring posts about the school

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school.
- The school should effectively respond to social media comments made by others according to a defined policy or process.

Appendix Artificial Intelligence in Schools

Statement of intent

Artificial Intelligence (AI) technology is already widely used in commercial environments and is gaining greater use in education. We recognise that the technology has many benefits and the potential to enhance outcomes and educational experiences, with the opportunity to support staff in reducing workload.

We also realise that there are risks involved in the use of AI systems, but that these can be mitigated through our existing policies and procedures, amending these as necessary to address AI risks.

We will educate staff and learners about safe and ethical use of AI, preparing them for a future in which AI technologies are likely to play an increasing role.

The safeguarding of staff and learners will, as always, be at the forefront of our policy and practice.

Policy Statements

- The school acknowledges the benefits of the use of AI in an educational context - including enhancing teaching and learning and outcomes, improving administrative processes, reducing workload and preparing staff and learners for a future in which AI technology will be an integral part. Staff are encouraged to use AI based tools to support their work where appropriate, within the frameworks provided below and are required to be professionally responsible and accountable for this area of their work.
- We will comply with all relevant legislation and guidance, with reference to guidance contained in Keeping Learners Safe
- We will provide relevant training for staff and governors in the advantages, use of and potential risks of AI. We will support staff in identifying training and development needs to enable relevant opportunities.
- We will ensure that, within our education programmes, learners understand the ethics and use of AI and the potential benefits and risks of its use. The school recognises the importance of equipping learners with the knowledge, skills and strategies to engage responsibly with AI tools.
- As set out in acceptable use agreements, the school will use AI responsibly and with awareness of data sensitivity. Where used, staff should use AI tools responsibly, ensuring the protection of both personal and sensitive data. Staff should only input anonymized data to avoid the exposure of personally identifiable or sensitive information.
- Staff should always ensure AI tools used comply with UK GDPR and other data protection regulations. They must verify that tools meet data security standards before using them for work related to the school.

- Only those AI technologies approved by the school may be used. Staff should always use school-provided AI accounts for work purposes. These accounts are configured to comply with organisational security and oversight requirements, reducing the risk of data breaches.
- We will protect sensitive information. Staff must not input sensitive information, such as internal documents or strategic plans, into third-party AI tools unless explicitly vetted for that purpose. They must always recognize and safeguard sensitive data.
- The school will ensure that when AI is used, it will not infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
- AI incidents must be reported promptly. Staff must report any incidents involving AI misuse, data breaches, or inappropriate outputs immediately to the relevant internal teams. Quick reporting helps mitigate risks and facilitates a prompt response.
- The school will audit all AI systems in use and assess their potential impact on staff, learners and the school's systems and procedures, creating an AI inventory listing all tools in use, their purpose and potential risks.
- We are aware of the potential risk for discrimination and bias in the outputs from AI tools and have in place interventions and protocols to deal with any issues that may arise. When procuring and implementing AI systems, we will follow due care and diligence to prioritise fairness and safety.
- AI tools may be used to assist teachers in the assessment of learner's work and identify areas for improvement. Teachers may also support learners to gain feedback on their own work using AI. Use of these tools should be purposeful, considered and with a clear focus on ensuring impact and understanding and mitigating risk
- Maintain Transparency in AI-Generated Content. Staff should ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance. Clearly marking AI-generated content helps build trust and ensures that others are informed when AI has been used in communications or documents.
- We will prioritise human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans and critically evaluate AI-generated outputs. They must ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing. This is especially important for external communication to avoid spreading misinformation.
- Recourse for improper use and disciplinary procedures. Improper use of AI tools, including breaches of data protection standards, misuse of sensitive information, or failure to adhere to this agreement, will be subject to disciplinary action as defined in Staff Disciplinary Policy.

Responsibilities

Headteacher and Senior Leaders

Are responsible for the strategic planning of how AI will be used in the school, establishing AI policies and procedures and ensuring that all staff receive relevant training and have a clear understanding of these.

Designated Safeguarding Person (DSP) / Online Safety Lead

Our Designated Safeguarding Person / Online Safety Lead has responsibility for online safety in the school. They are expected to have knowledge of AI and its safeguarding implications and an in-depth working knowledge of key guidance. We ensure that they receive appropriate specialist training, commensurate with their role and that ongoing training is provided for all school staff.

Data Protection Officer

The DPO will be responsible for providing advice and guidance about data protection obligations in relation to the use of AI, including related Data Protection Impact Assessments (DPIAs).

Technical Staff

Technical staff / IT Leads will be responsible for technical support and guidance, with particular regard to cyber-security and the effectiveness of filtering and monitoring systems. (Schools that have external contracts for technical support must ensure that the support provider is aware of the school's requirements regarding AI and comply with school policies. Such schools should also audit these services for compliance)

Staff

It is the responsibility of all staff to have read and understood this policy and associated Acceptable Use Agreements. All staff must report any incidents or suspected incidents concerning the use of AI in line with school policy. All staff will challenge any inappropriate behaviour. Staff have a duty to ensure that:

- the school environment is safe
- sensitive and confidential data / information is secure
- that their actions do not put the reputation of the school at risk and that
- learners understand their responsibilities

Governors/Trustees

We ensure that our Trust Board / governing body has a good understanding of how AI is used in a school context and potential benefits and risks of its use. They receive regular training and updates, enabling them to support the school and challenge where necessary. This may include evaluation of

the use of AI in the curriculum, administration and communications, ensuring that risks relating to these issues are identified, that reporting routes are available, and that risks are effectively mitigated.

Vulnerable groups

We recognise that vulnerable learners are more likely to be at risk from the misuse of AI (both in their own use or through the actions of others). We ensure that vulnerable learners are offered appropriate support to allow them to gain full benefit of the use of AI, while being aware of the potential risks.

Children are considered to be vulnerable data subjects and therefore any process involving their personal data is likely to be "high risk". If an AI/ automated process is used to make significant decisions about people, this is likely to trigger the need for a Data Protection Impact Assessment (DPIA).

Reporting

Our reporting systems are well promoted, easily understood and easily accessible for staff, learners and parents/carers to confidently report issues and concerns, knowing these will be treated seriously. All reports will be dealt with swiftly and sensitively and outcomes shared where appropriate. We also respond to anonymous reports, or reports made by third parties.

Responding to an incident or disclosure

Our response is always based on sound safeguarding principles and follows school safeguarding and disciplinary processes. It is calm, considered and appropriate and puts the learner at the centre of all decisions made.

- All AI incidents (including data breaches and/or inappropriate outputs) must be reported promptly to the relevant internal teams. Effective reporting helps mitigate risks and facilitates a prompt response.
- Where relevant / required incidents will be reported to external agencies e.g., Police, LADO, DPO, ICO.
- All AI related incidents will be recorded through the school's normal recording systems

In the case of misuse of AI by staff, the normal staff disciplinary processes will be followed.

Risk assessment

It is key that our approach to managing risk aligns with, and complements, our broader safeguarding approach.

The school understands that despite many positive benefits in the use of AI, there are some risks that will need to be identified and managed, including:

- Legal, commercial, security and ethical risks
- Data Protection
- Cyber Security
- Fraud
- Safeguarding and well-being
- Duty of care

Education

Our school's educational approach seeks to develop knowledge and understanding of emerging digital technologies, including AI.

This policy outlines our commitment to integrating Artificial Intelligence (AI) responsibly and effectively within our school environment. We will use AI responsibly, safely and purposefully to support these aims:

- Enhance academic outcomes: Improve educational experiences and performance for pupils.
- Support teachers: Assist in managing workloads more efficiently and effectively.
- Educate on AI use: Promote safe, responsible, and ethical AI practices among staff and learners.
- Develop AI literacy: Incorporate AI as a teaching tool to build AI skills and understanding.
- Prepare for the future: Equip staff and pupils for a future where AI is integral.
- Promote educational equity: Use AI to address learning gaps and provide personalised support.

Our school's approach is to deliver this knowledge and understanding wherever it is relevant within the curriculum. This will include:

- Computing
- PHSE

Our approach is given the time it deserves and is authentic i.e., based on current issues nationally, locally and within our sschool's risk profile. It is shaped and evaluated by learners and other members of the school community to ensure that it is dynamic, evolving and based on need. We do this through:

- Learner assessment
- Critical evaluation of emerging trends and research findings
- Surveys
- Focus groups
- Parental engagement
- Staff consultation

- Engaging with learners
- Staff training

The following resources are used:

- ProjectEVOLVE - https://projectevolve.co.uk

Training

As AI becomes an integral part of modern education, it is essential for staff to be trained in its effective use. Training equips educators with the knowledge and skills to integrate AI tools responsibly into teaching, learning, and administrative processes. It ensures that AI is used to enhance educational outcomes, streamline workloads, and promote equity while safeguarding ethical practices and data privacy. By fostering AI literacy, staff can confidently prepare pupils for a future where AI is a key driver of innovation and opportunity.

- We will provide comprehensive training to all staff on the effective, responsible, and ethical use of AI technologies in education, ensuring these tools enhance teaching, learning, and administrative processes.
- We will integrate AI-related risks and safeguards into annual safeguarding training, aligning with statutory guidance, including "Keeping Learners Safe."
- We will ensure all staff are equipped with the knowledge and skills to confidently integrate AI into their professional practice and to prepare pupils for a future shaped by AI-driven innovation and opportunities.
- We will train staff to identify, assess, and mitigate risks associated with AI technologies, including issues such as biased algorithms, privacy breaches, and harmful content.
- We will train staff on robust data protection practices, ensuring compliance with UK GDPR and other relevant regulations while using AI systems.
- We will promote ethical practices in the use of AI, ensuring that these technologies contribute to equity, fairness, and inclusivity in education.
- We will empower educators to teach learners about the safe and ethical use of AI, cultivating a culture of awareness, resilience, and informed decision-making in the digital age.
